MES. REYNOLDS'S CROSS-EXAMINATION RE- THE COLORED CHAMPION MIGHT HAVE SUMED AND FINISHED TO-DAY.

She Explains Why She Swore in 1884 that she Was Worth but \$2,500-Claims Against Her Father's Unsettled Estate Threatened to Sweep It Away-When Farniture Was Taken from Flushing.

The trial of Dr. William Reynolds, charged rith felony in having made a false claim of losses by the burning of his country seat at Flushing two years ago, whereby the London Assurance Corporation was to be defrauded out of \$6,000 insurance on the furniture, was resumed to-day before Justice Lawrence in the Court of Oyer and Terminer after a recess

of ten days.

This recess was taken because of the illness of the twelfth juror, Henry Lehrberger, who has been a suffering victim of the un-

seasonable weather. He was in his place at the opening of the court.

Juror Morris S. Barnett, the sixth juror, was sick in bed four days of last week with a throat trouble, and a half dozen throats in court were swathed in haudkerchiefs or Justice Lawrence announced that the trial

Justice Lawrence announced that the trial must be concluded this week, even if it were necessary to hold night sessions, as he was to sit in Chambers, next week.

Assistant District-Attorneys Fitzgerald and Dos Passos and Orah B. Gould, the young lawyer of Flushing, appeared as prosecutors, and the cross-examination of Mrs. Jessie Reynoids, the doctor's wife, was resumed by Mr. Fitzgerald.

A number of bills, receipts and checks of 1811 to 1834 were discussed. They indicated

A number of fills, receipts and checks of 1881 to 1884 were discussed. They indicated at least that Mrs. Revnolds was in the habit of handling a great deal of money. Among them were bills of Stern Bros. for more than \$2,800 worth of dry-goods bought during these years by Mrs. Reynolds.

Then it was brought out that in November, 1882 the Summer house of the dector and his 1883, the Summer house of the doctor and his wife, at Flushing, was burned down, and Mrs. Reynolds received \$7,000 insurance on the house, and her husband \$5,000 on the

Dr. Reynolds says the house cost his wife \$20,000.

Mrs. Reynolds bassed through the ordeal of cross-examination, always terrible to a woman, without once lesing her temper, or

failing in a prompt answer to every question.

She sighed with relief, however, when Mr.

Fitzgerald ceased his tormenting.

John D. Townsend began the redirect examination with a conversation between Dr. Reynolds and Gormley, one of the farm bands, who testified to the removal of the furniture from the Flushing house before the

It was next day after the burning, and the It was next day after the burning, and the doctor asked Gormley where he was during the fire. Gormley registed that he was just coming up the road when he saw flames bursting out the kitchen door. Gormley neted as if embarrassed on that occasion.

Mrs. Reynolds explained the apparent admission that she had sworn falsely in 1884 before the Onese County Assessment but

mission that she had sworn falsely in 1884 before the Queens County Assessors that she possessed only \$2,500 worth of personal property. She said that that \$2,500 worth of property was in jewels, pictures and clothing. At that time het fainer's estate was still in the hands of the executors and against it were many thousand dollars' worth of claims by the liavemeyers and others. It was then feared that it would all he swent away.

"What I swore to at that time," said Mrs.
It would all be swept away.
"What I swore to at that time," said Mrs.
It would all was true. I have nothing to
it theraw or amend in any way. The claims
against my father's estate were all withdrawn in 1888, and I am now worth fully \$200,000.
When I made the affidavit in 1884 it was after
consultation with and advice from a lawyer."
Mrs. Reynolds also testified that the three bookcases which Brennan says he moved from the Flushing to the Forty-seventh stree house in January, 1887, were really brought over in December, 1886, and Brennan decked them with Christmas greens in the Fortyseventh street house. The same was true of the big painting, "The Aurora."

His sole desire in clearing the Himalayas was to show the powers of his machine, and to convince those who did not wish to be convinced. Uncle Prudent and Phil Evans did not allow the admiration they must have felt to appear, as all their thoughts were directed towards escaping. They did not even admire the superb spectacle offered to their view as the "Albatross" followed the pic-

turesque borders of the Punjaub. The morning of the 29th of June they reached the incomparable valley of Cashmere, and a few hours after crossed the town of Srinagar, better known under the name of Cashmers. The "Albatross" stopped over the lake, and descending to within thirty yards above the water, remained stationary. Then, by means of a rubber tube, George Kerns replenished the supply of water, which during the long flight, was nearly exhausted. During the operation Uncle Prudent and Phil Evans were interested spectators. The same thought had flashed through their brains. They were but a few yards above the surface of the lake. They were both good swimmers. A plunge would set them free, and once in the water, how could Robur recapture them? The propellers beneath the "Albatross" would be usoless, as they would be submerged.

If Herat, as has been said, is the key to Central Asia, it mattered little to him whether the key was in a British or a Muscovite pocket. The daring spirit that claimed the air for its unique domain troubled not itself with terrestrial affairs. The country began to disappear under a storm that was frequently produced in these regions, and the "Albatross" was forced to ascend higher into the air. The Persian frontier faded from view, and
